Teacher gives a copy of this observation to the student immediately after the session and keeps a copy for their own records. If the observation is by video skype, Teacher Observer needs to scan this document & email it to the student immediately after the session.

If there are a few items that need more work and Teacher Observer feels that student will integrate these improvements, Teacher needs to immediately email info@resonancerepatterning.net requesting RRI to certify the practitioner.

If there are many areas needing improvement, suggest that the student integrates these improvements before being observed again.
